

January 2015

Borough President Eric L. Adams has created the “City Speaks” series where he brings together residents and city agencies to discuss their procedures and policies on the services that they provide Brooklynites. Brooklyn Borough Hall’s Constituent Assistance Center frequently receives complaints from constituents seeking assistance with flooding and sewer backups. We would like to invite you and the community to attend the next “City Speaks” forum featuring the Department of Environmental Protection (DEP) scheduled for March 11, 2015 at 6:00 P.M. In order to prepare for the upcoming City Speaks, we ask that you complete the questionnaire below and e-mail programs@brooklynbp.nyc.gov or fax responses to 718-802-3881.

PARTICIPANT SURVEY

Name:	Email:
Phone Number:	Address:
Address of flooding or sewer back up:	Cross Streets:
