St. Gregory RC Church

999 St. Johns Pl

Come out and get information and answers from our attorney Michael Hiller (veteran land-use, zoning and preservation attorney), invited guests and your neighbors. This development is an assault on our landmarked community and should have never been approved. The Landmarks Preservation Commission needs to protect all historic districts.

With your help and support, we can still stop this! Every block in the Crown Heights North Historic District matters!

All development is not good development. These apartments will not be affordable to the community.
