

Atlantic Avenue Neighborhood Street Redesigns and Plaza Workshops

Subject: The NYC Department of Transportation (NYC DOT) is conducting outreach on capital reconstruction plans for Lowry Triangle and Underhill Plaza, Atlantic Avenue traffic study, and Capital Project Scope Development Study (CPSD) updates for Vanderbilt and Underhill Avenues.

The Lowry Triangle and Underhill Plaza capital reconstruction would convert the plaza areas from the painted teal pedestrian space into a permanent plaza that is cohesive with Lowry Triangle with concrete sidewalks and in ground plantings and trees. Atlantic Avenue traffic study will explore lane reduction and streetscape improvements, and Vanderbilt Avenue and Underhill Avenue will report back on the corridor study from the CPSD.

Workshop materials and online survey will be available at nyc.gov/atlanticave the day of the event.

Dates, Times **Wednesday, October 21, 4 p.m. to 6 p.m.**

Locations: Visit our workshop at Lowry Triangle on Underhill Plaza between Atlantic Ave. and Pacific St.

Thursday, October 22, 8 a.m. to 10 a.m.
